

In this section, you will:

1. Look at the picture of me looking at my friend Tia.
2. Then fill in the blanks with how I think Tia might be feeling and what she might be thinking. As you fill in the blanks, make a "smart guess". A "smart guess" is when you look closely at a person's eyes, face and body to find out what they are thinking about and feeling. Then make your best guess. It is your choice.
3. You may choose to fill in my thought bubble with a word or a picture.

Example:

Zeebu is looking at Tia's face.

Zeebu thinks that Tia might be feeling happy.

Tia is looking at the candy jar and
may want a piece of candy.
